Para educators, regardless of what position they may be assigned, are a vital link for school districts to accommodate a wide range of individual and group needs. They are team members who support learner-centered instructional environments and expand student-learning by providing individualized attention, instruction, and behavior management. In order for a Para educator to understand, clarify and fulfill their duties, they must have a clear understanding of the roles and responsibilities of all staff.

Aligned with Levels 1 and 2 of the National Para Educator and Council for Exceptional Children (CEC) Standards, this basic module seeks to clarify the roles and responsibilities of the Para educator, teacher, and administrator as partners in an educational team.

Strategies to work effectively as a member of an instructional team are provided. **Light dinner will be served.**
