

Training Day for Educators on Undocumented Students

THURSDAY,
March 1, 2018
5PM—7PM

Soifer Room @ AFT Connecticut

Light dinner will be provided.

Join CT Students for a Dream, an organization led by undocumented youth, for a presentation and conversation on how educators can best support and advocate with undocumented youth. This presentation will go over barriers and challenges faced by undocumented youth and families, the broader system that creates these barriers and challenges, current laws and policies and how they affect families, and then a conversation around next steps that you can take as an educator in supporting and advocating with students in your classroom, school, and or local community. Bring your questions and your ideas as we discuss how we can all work together!
