UNITE HERE!

Graduate teachers at Yale voted to form a union.

We want a seat at the table and immediate action on widespread sexual harassment and racism on campus.

Instead of negotiating, Yale is trying to buy time until Trump appointees can void our votes and roll back our rights.

We are fighting back. We have marched, picketed, occupied Yale's campus 24/7 with our encampment called 33 Wall Street, committed acts of civil disobedience, and fasted.

We will win.

This is our call:

Union members and allies near and far, please stand with us on May 22nd, Yale's Commencement Day.

Together we will demonstrate that we are done waiting.

Now is our time.
