

TELL THE GOVERNOR AND STATE LAWMAKERS

KEEP YOUR PROMISE

FUND TEACHERS' PENSIONS ▪ FUND PUBLIC EDUCATION

RALLY! - JOIN US ON MAY 18

AFT Connecticut is urging legislators to reject any budget proposal that shifts the state's responsibility for education funding and teacher retirement onto Connecticut's cities and towns.

This proposed cost shift would result in:

- Higher property taxes
- Teacher layoffs
- Larger class sizes
- Reduction in critical student support services
- Elimination of programs such as foreign language and full-day kindergarten in many districts

Legislators are much more likely to understand the consequences of a cost-shift plan if they see the very people who will be affected by it: teachers, students, parents, and members of the communities legislators serve and represent.
