**Room**  
**@ AFT-CT**

.....

This workshop on Teachers and Paraprofessionals Working More Effectively Together will share how in today's world the most effective schools and educators work as a team. These educational teammates form relationships that are built on good communication skills, trust, respect, and recognition of what each other does with our students. When paraprofessionals and teachers use the power of synergy everyone wins, especially the students. The workshop will hit on points of:

Thoughts on Teams  
Developing Good Relationships  
Planning  
How 2 is Better Than 1

What Teachers and Paras Are and Do  
Enhancing Communication  
Resolve Conflict  
Q&A

.....

Light dinner will be served.
