

# The #PublicSchoolProud CAMPAIGN

I ♥  
MY  
PUBLIC  
SCHOOL

*Every classroom has a story.  
Every school and community has a story.  
What is yours?*

We all know the great things that happen in public schools every day. Students and educators have a special place in all our hearts. Unfortunately, public education and school educators are under attack. Now is the time to show why you love your work and why it is important.

**If your school had the resources it needed, what could you do for your students and community?**

**What will happen without them?**

*What special project could your class pursue?*

*What special event could your school organize each year?*

*What else would our students be able to do?*

*What challenges would your students surmount?*

*How would parents be more involved in the life of your school?*

**Want to organize a #PublicSchoolProud
