

SUPPORT OUR SCHOOLS

VOTE **YES**
September 27th!

Windham public schools are at a critical juncture.

Your help is needed

Over the last three years, parents, educators, administrators, elected officials, and community leaders have collaborated to implement positive changes to improve student opportunities and close the achievement gap. These changes are beginning to have a significant positive impact. **Windham students have begun to make real progress.**

Our schools cannot continue to improve without an adequate budget. **After three failed budgets, our students are counting on us to support our schools on Tuesday, September 27th.**

Teachers and support personnel have already been cut since the first budget referendum. If the budget fails to pass again, **deeper cuts are likely, including limiting academic choices and supports for students and decreasing funds for athletic programs.** Defeat also risks the return of full scale state intervention in our schools.

Students deserve to keep moving forward, not slide backward. Show them we care about their futures.
VOTE YES on September 27th.
