

Connecticut's
richest 1% ...

5.3%

... pay **5.3%** of their
income in state and
local taxes.

The rest us—the **99%**—pay
much more: an average of **9.9%**
of our income.

Fair?

Gov. Malloy's
budget slashes
programs and
services for
Connecticut
families
because it **fails**
to ask the
richest among
us to pay a
little bit more.

Connecticut doesn't have a budget problem.
Connecticut has a fairness problem.

Tell Gov. Malloy and state legislators that
you think everyone should pay their
fair share, including the richest 1%.
