presents to our PreK-8 grade teacher members...

Engaging Students in Science Webinar

May 11th

TUESDAY

6:30pm - 7:30pm

*Zoom link to be emailed
prior to webinar.*

Dr. Heidi Gold-Dworkin from Little to Great Scientists will be giving teachers the skills to use easily available materials to engage all students in science. As a life-long scientist, Dr. Heidi has pioneered Hands-On Science to teach young children basic science processes and skills. In this webinar, she will guide you in the transformation of Hands-On science to Online science. She will provide several examples that seamlessly integrate all aspects of the NGSS.

Presented by
Dr. Heidi Gold-Dworkin
CEO & Founder
of CT-based Little Scientists®

Has authored scientific articles in *Science*, *PNAS*, and *Cell*, and created 450 manuals for teaching hands-on, minds-on, inquiry and practice-based science to students from Pre-K to 8th Grade. Dr. Heidi developed *Making Science Make Sense* kits for Bayer Pharmaceutical Company, and has **five elementary school science books** published by McGraw-Hill. She founded a nonprofit company called "Great Science for All" whose mission is to help alleviate the socio-economic achievement gap.
