

WALL STREET GOT PAID - WHAT ABOUT ESSENTIAL WORKERS?

Since the start of the pandemic, **Connecticut's 14 billionaires have seized \$12.6 billion** in additional wealth. But the **essential workers who put their lives on the line to keep society afloat—disproportionately women and people of color**—got nothing but empty praise. Thousands of working people across CT continue to struggle with low wages, lack of health care and education, the threat of eviction, and much more.

Join the Recovery For All Coalition to demand an end to this injustice. We're calling on the Governor and the legislature to allocate **hero pay for ALL essential workers** and make **real long-term investments in our communities**.

RECOVERY FOR ALL, NOT RECOVERY FOR THE FEW!

**THURSDAY - SEPTEMBER 9, 4PM
HARTFORD CAPITOL NORTH STEPS**
