

March 16, 2020
MONDAY

5-7pm
Soifer Room @ AFT CT
Light dinner will be provided.

The session will cover physiological and behavioral characteristics of an individual with ADHD and strategies and supports to help the individual access the general education classroom. The content applies to all grade levels and applies to any educator working with individuals with ADHD. Bring questions about an individual you are supporting and they can be addressed during or after the session.

Presenter:

Randy Ewart

Randy is a 25 year math teacher who earned a master's in special education. He teaches math for students with a disability at UCONN and CCSU and has conducted district wide PD on ADHD. He is also the instructor for special education for the Alternative Route to Certification program (ARC).
