

## Danbury Hospital & New Milford Hospital Healthcare Workers

We are the committee of Healthcare Workers at Danbury and New Milford Hospital. Healthcare workers are in every department and on every shift. We have come together to help build a better hospital. Healthcare workers provide the largest percentage of direct patient care in a hospital but we also work behind the scenes making sure supplies are stocked and beds are clean. We see every corner of our hospitals and we know there are ways to improve the care our community receives.

We are prepared to be an active partner with management and to work together to improve conditions for workers and patients. The Registered Nurses have had their union since 1973. The LPNs, Technical Professionals, and Therapists have just formed their union. The history of our organization is one of workers collectively working with management to improve the quality of care. It is time for the
