presents to our **TEACHER & PARA** members...

Join us for a discussion about the importance of Holocaust and genocide education, as well as a review of resources available to educators when teaching this important curriculum.

Teaching Difficult History Takes Time, Thought, and Training

- To teach the Holocaust and genocide, instruction must be rooted in the incredibly deep and broad scholarly literature that has emerged in recent decades.
- With too much to teach and not enough time, training and guidance can help teachers identify which of the available sources will work well within their classrooms and complement each other.
- Seemingly everything is available at the touch of one's fingertips, yet too little vetting of information and sources has become the norm.
