

A Union of Professionals

AFT Healthcare 

Home Health Aids of Southeastern VNA

Recognition / Solidarity Petition

We are the Home Health Aides of the Southeastern VNA, an affiliate of L+M Corporation. We work every day with our clients. We see our patients on their good days and bad, and we help families make it through with dignity. We do our jobs with compassion, and the bonds we forge are fulfilling.

Unfortunately, our agency does not treat us with the same respect. We frequently find ourselves struggling to make ends meet, while the corporation we work for makes millions of dollars. We must speed through our work and rush from patient to patient as our workload goes up and up, but our paid hours go down and down.

We cannot continue in this way. We have joined together with the nurses at Southeastern VNA and our sisters and brothers at L+M Hospital. We are a majority of the Home Health Aides, and we wish to be recognized as a union for the purposes of collectively bargaining wages, benefits, and working conditions. We are ready to sit down and negotiate a contract that will bring dignity, respect, and fairness to our job.
