Do you have student debt? You're invited to attend this "Train-the-Trainer" workshop to learn about free tools aimed at helping borrowers and their families lessen and manage their student debt. The goal is for participants to be able to use their learning to help train their co-workers going forward.

To be eligible, participants are required to attend at least one AFT Student Debt Clinic webinar prior to this training. Sessions are scheduled each Thursday beginning in late July and are posted at our website's Calendar at www.aftct.org/calendar.
