

ARTIFICIAL INTELLIGENCE FOR TESTIMONY: USING AI TO TELL YOUR STORY AND ADVOCATE FOR CHANGE!

WEBINAR

Are you passionate about advocating for the work needs and benefits of your community, but struggle with finding the right words? In this quick and fun virtual workshop, we'll show you how to use AI to easily create compelling stories that can make a real impact. Whether you're speaking to local boards, writing letters, or posting on social media, telling your story is crucial to making your voice heard.

In this workshop, you'll learn how AI can help you:

- Testify at local Boards of Education
- Write powerful Letters to the Editor
- Craft engaging Social Media posts
- Testify at the Legislature

If you don't like to write, feel intimidated by the process, don't know where to start, or just don't have the time – we've got you covered! We'll teach you how AI can help you create a draft in minutes, giving you a starting point that you can personalize in your own voice.

Sign up today and discover a powerful tool that will help you advocate with confidence!
