Finding Real Solutions for Mental Health and Well-Being

Please join this guided discussion to share ideas on how the union can support members' mental health and well-being. This is an opportunity to brainstorm and give input to AFT CT and AFT National. Together, we will identify practical solutions that can be translated into bargaining proposals.

Please come to share your thoughts:

- What are members experiencing and what do they need?
- Can members access quality treatment for mental health needs and substance use disorders? What are the barriers to getting quality care and how can we change that?
- What can we bargain for to improve working conditions (in addition to staffing?)
- What supports and services can the union provide to members and how can AFT and AFT CT help with that?
