DSP **DEMOCRACY SECURITY PROJECT**

Cyber Safety and Security Training

Cyber Safety and Security training is designed to help participants increase their security awareness regarding cyber and online threats, equipping teams and volunteers to protect their personal information online and respond to digital crises.

The training will provide specific tools and tips to effectively defend against digital threats as well as provide action steps along with insights on how you can increase your privacy both on and offline.

Training Dates:

Wednesday, Aug. 27
8-9:30 p.m. EDT.

Click **HERE** to register for this training.

Wednesday, Sept. 24
8-9:30 p.m. EDT.

Click **HERE** to register for this training.

The **Democracy Security Project** was launched in 2024 by leaders and organizers with deep experience dealing with online and offline threats over the course of their careers. DSP has trained more than 4,000 individuals across 47 states, equipping civil society leaders and teams with the tools they need to stay safe and resilient.
